

International Mobility Report 2020

10th
ANNIVERSARY

Tecnológico
de Monterrey

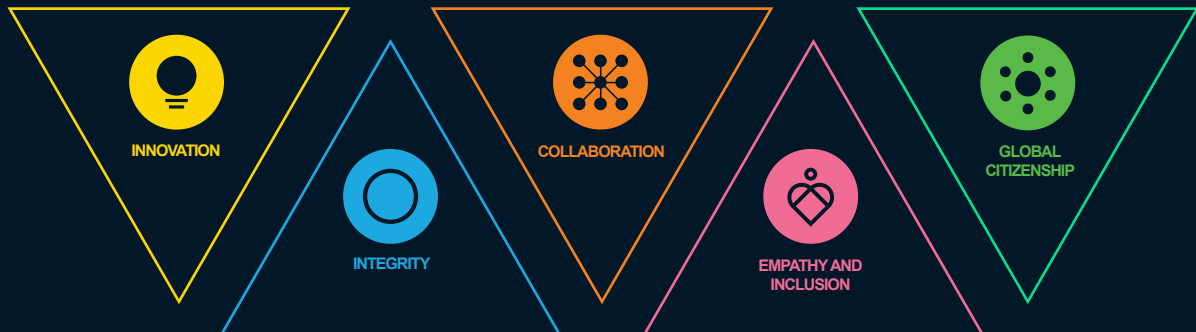

Vision

"Leadership, innovation and entrepreneurship for human flourishing"

Values

The principles of Tecnológico de Monterrey are based on the ideals of Eugenio Garza Sada.

Garza Sada established Tecnológico de Monterrey university with his vision and philosophy.

Tecnológico de Monterrey

Tecnológico de Monterrey has **five** regions and **26** campus throughout Mexico, while the academic life is concentrated in **six** Schools.

Five Regions:

- **Monterrey Region:** comprised by the Monterrey, Laguna, and Saltillo campus.
- **Mexico City Region:** comprised by the Ciudad de México, Santa Fe, and Estado de México campus.
- **West Region:** Guadalajara, Chihuahua, Sonora Norte, León, Sinaloa, Aguascalientes, and Morelia campus.
- **Center-South Region:** Querétaro, Puebla, Toluca, Cuernavaca, San Luis Potosí, Hidalgo, and Tampico campus.
- **Development Region:** Ciudad Juárez, Ciudad Obregón, Chiapas, Irapuato, Veracruz and Zacatecas campus.

6 Schools

- School of Architecture, Art and Design
- School of Social Sciences and Government
- School of Humanities and Education
- School of Engineering and Sciences
- School of Medicine and Health Sciences
- School of Business

Differentiators

Five elements that make Tecnológico de Monterrey:

1

An educational model based on challenges.

2

A memorable academic experience.

3

A tutoring model to guide and counsel each student.

4

A social impact platform with community service programs, international experiences, and entrepreneurship focus.

5

A global community of alumni.

José Manuel Páez Borrallo
Vice Rector for International Affairs
Tecnológico de Monterrey

Editorial Letter

More than surviving, we are thriving.

When the news of the global pandemic arrived, Tecnológico de Monterrey had to take a stand. We knew that the decision we made in March 2020 would have long-term consequences. I am happy to say that we took the right decision: **to put the health of our community above everything else.**

The Vice Rectory for International Affairs played a leading role in the decision-making process. I can confidently say that my team not only surf the pandemic and all the implications it brought, but they also **thrive in the work from home-era and its new challenges.**

More than surviving, we are thriving.

If I could summarize this year of work in one word, it would be **innovation**. The creativity, adaptation to change, and implementation of new academic experiences has become the flagship of internationalization both in Mexico and in the rest of the world.

This 2020 we put in motion an integrative initiative called Global Learning with three pillars. The first one, *Global Classroom by Tec de Monterrey started in 2018 and has delivered amazing results in terms of academic competencies. The second pillar is called *Global Week: Diversity in a Global World was launched in October 2020.

The third pillar is still under construction and it aims towards achieving the goal of all students to live an international academic experience through the use of technology and in an international collaborative environment. I'm sure that with the help of our international partners and their professors we would achieve our ultimate goal: to give students an international academic experience. We are not stopping due to the pandemic, we are expanding the type of experiences by including hybrid and virtual opportunities and components.

In this report you will find a summary of internationalization in the past ten years, the efforts of 2020, and our ace under the sleeve: virtual international academic experiences.

*Internal naming of the initiative

Pandemic 2020: a different year

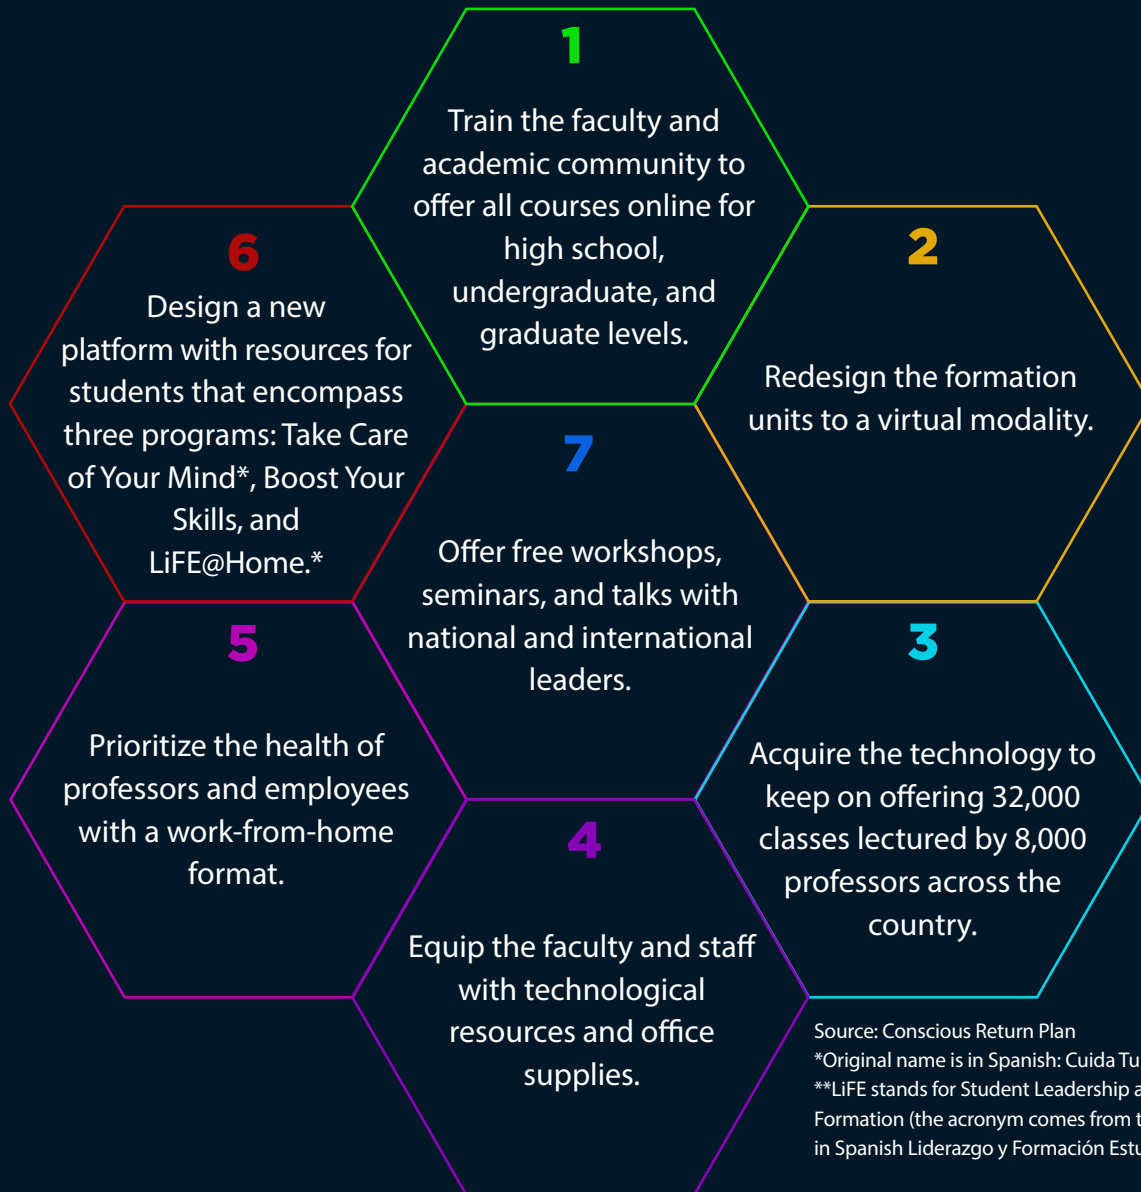

2020 was a very different year for every institution. The global pandemic due to COVID19 has changed the way Tecnológico de Monterrey professors teach, the students learn, and how the employees work. The number one priority is to **protect the health of Tec community**.

On March 12th 2020, Tecnológico de Monterrey was one of the first institutions to suspend face-to-face activities. Professors and teachers took a one-week workshop to migrate all activity to a virtual format called HyFlex+Tec.

The International Finance Corporation, organization of the World Bank, **praised Tecnológico de Monterrey action** during the pandemic situation during the webinar: “Shaping the future of transformational education and lessons from COVID-19: Mexico shows the way” in November 18th 2020.

7 action plan for the pandemic

New resources for students

Online extracurricular classes with “LiFE@Home”

- Scenic arts
- Gastronomy
- Yoga
- Wellbeing
- Plastic arts
- Literature
- Fitness
- Personal development
- Music
- Chess
- Track
- Training for representative teams

Reference: Available to Tec community through MiTec portal or MiEspacio portal.

New resources for students

Tqueremos Iniciative

- “Tqueremos” phone support 24/7: is a free support phone line for legal issues, nutritional concerns, mental health, emotional, and family issues.
- QPR (Question, Persuade, Refer): is a three-step program of suicide prevention, any member of the community can take the workshop online.
- PCA (Positive Coaching Alliance): is a non-profit organization to create a positive, character-building youth sports environment.
- Wellbeing Gym: will be a set of spaces designed to develop and strengthen personal and academic abilities.
- “Punto Blanco” and Reflection Areas: are spaces inside campus dedicated to meditation.
- “Testigo Activo:” is a ‘see something, say something’ program.
- “Semana Vive Saludable:” is a one-week event focused on physical and emotional wellness.

New resources for students

MOOCs

- Free Massive Open Online Courses (MOOCs) for members of Tec community.
- Courses of music, art, health and wellbeing, and leadership.

Spectators School

Online billboard for national and international:

- Theater plays
- Conferences
- Movies and shorts
- Film festivals
- Landmarks virtual tours
- Museums virtual tours
- Ballet presentations
- Art gallery
- Classical music concerts

Reference: Available to Tec community through MiTec portal or MiEspacio portal.

Figures of the 10th anniversary

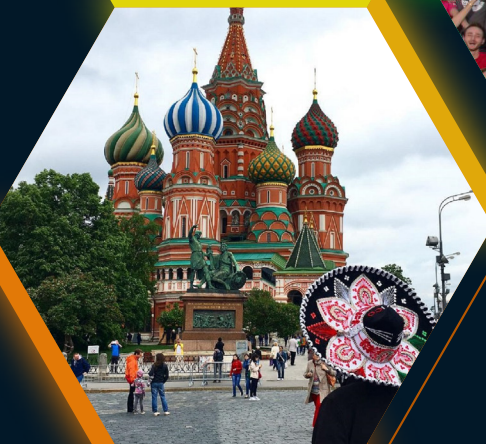

From **2010** to **2020**, over **166,637** students from Tecnológico de Monterrey have lived an international academic experience.

And in the last ten years, Tecnológico de Monterrey has received **94,827** international students in the different campus.

In 2020, **57%** of Tecnológico de Monterrey graduates had an international experience.

International experiences in the past 10 years

Year	Number of graduate students with international experience
2010	3224
2011	3346
2012	3563
2013	3737
2014	4297
2015	4675
2016	4865
2017	5971
2018	4893
2019	5236
2020	4747

International Experiences in 10 years

The first report of mobility, in 2010, shows that the number of Tecnológico de Monterrey students that lived an academic international experience were **6,705**.

The creation of new programs, the renewal of partnerships, and big efforts done by the offices and departments of the Vice Rectory for International Affairs helped increased the quantity of students that were able to have an international experience.

The report of 2019, a few months before the COVID19 spread became a pandemic, shows that **10,528** students had at least one international experience before graduating.

For 2020, a very challenging year for international activities, hybrid and virtual programs as well as the development of the Global Learning initiative allowed **4,124** students to live an academic international experience.

The Vice Rectory for International Affairs has proved experience in creating successful programs, providing high quality virtual experiences, and continuously innovating.

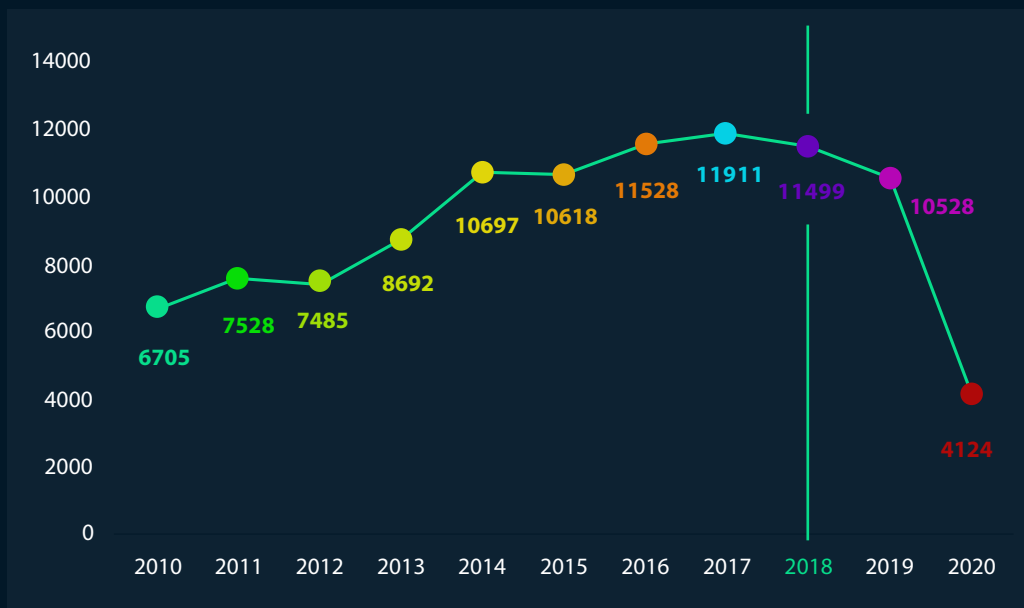

Just as the health pandemic and the travel restrictions will cease, **we will continue to offer our students life-changing international academic experiences.**

Growth in international mobility of Tecnológico de Monterrey students in the last 10 years*

International Undergraduate Students since 2010

Our students have been able to interact with other cultures without having to leave the country thanks to the presence **of international students and faculty from around the world**. This multicultural environment promoted the global outlook of Tecnológico de Monterrey community.

In 2010, Tecnológico de Monterrey received **5,301** international students. The number of students has been steadily increasing, only to have a slight decline in 2020 due to the COVID19 pandemic, where **4,433** foreign students enrolled in an exchange program, virtual courses or full time at Tecnológico de Monterrey.

The 4,433 students that Tecnológico de Monterrey welcomed in 2020: 918 are non-degree seeking international students and **3,515** are degree-seeking international students.

International Undergraduate Students since 2010

The Vice Rectory for International Affairs is redesigning the experiences for foreign students with formats like **Virtual Exchange Programs** where international students can take classes with Tecnológico de Monterrey faculty and students with courses that are available in Spanish or in English.

As well as the opportunity to participate in the Global Learning initiatives like ***Global Classroom by Tec de Monterrey** with semester-long collaborations designed by a Tecnológico de Monterrey professor and a professor from their home institution.

Another opportunity for foreign students to discuss world issues with people from other cultures is possible thanks to ***Global Week: Diversity in a Globalized World** with a one-week collaboration between Tec and their home institution.

Global Learning

The objectives of implementing Global Learning at Tecnológico de Monterrey* are:

1. Opportunity to generate internationalization experiences with meaningful learning that links students in a multicultural environment.
2. Exposing the student to real problems in a global context, allowing the development of skills and competencies, promoting diversity, inclusion, and appreciation for other cultures and their own, with special emphasis on the Sustainable Development Goals.
3. Promote collaborative work in a digital environment, making use of technological tools to connect students.

In 2018 we started ***Global Classroom by Tec de Monterrey.**

In 2020 we added ***Global Week: Diversity in a Globalized World.**

And we are preparing to launch **Global Challenge.**

The Global Learning Initiative will foster the design and inclusion of formats such as COIL and others that will benefit more students, allowing internationalization at home.

*Internal naming of the initiative

Global Classroom by Tec de Monterrey

Global Classroom by Tec de Monterrey* is a strategic initiative of the Vice Rectory for International Affairs consolidated as one of the most innovative programs in 2020 achieved an all-time high.

The health pandemic made Global Classroom by Tec de Monterrey the best choice to have an international academic experience.

The students used technological tools to learn in a multicultural environment. In 2020, **62 courses** were linked with partner universities from where **1,652 undergraduate Tecnológico de Monterrey students** benefited from this initiative as well as **1,732 international students** from **40** partner universities.

Global Week: Diversity in a Globalized World

Tec Week (Semana Tec) is a curricular learning unit of full immersion activities or experiences, inside or outside campus, which aims to contribute primarily to the development of transversal competences.

In 2020, undergraduate students in their third semester (sophomore students) were offered activity weeks focused on the values: Entrepreneurial Spirit, Global Vision, Leadership, and Human Sensitivity.

The Vice Rectory for International Affairs coordinates the Global Week along with the School of Social Sciences and Government during week 6 and week 12 of the Fall Semester (August-December) 2020.

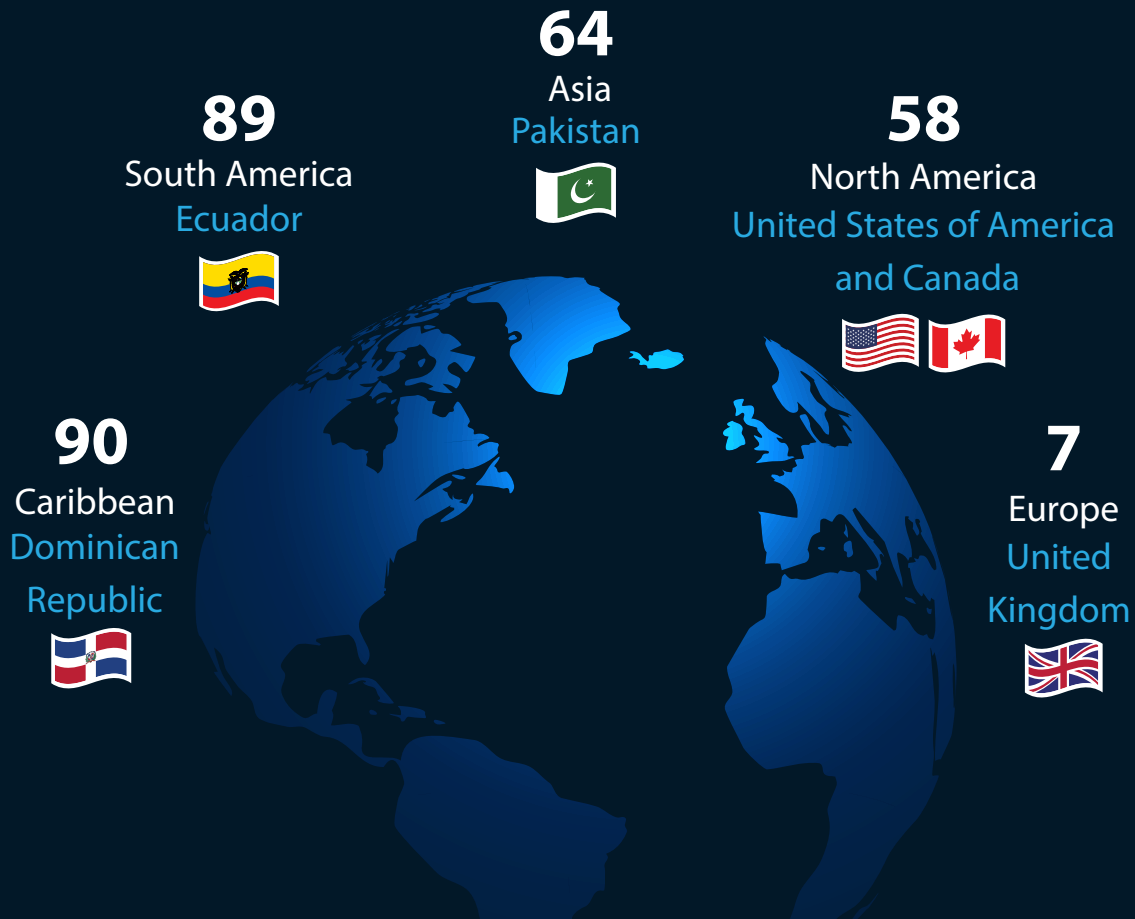

Figures of Global Week

581 undergraduate students participated

- **273** of Tecnológico de Monterrey
- **308** of partner universities

Regions and countries from the undergraduate international students

Figures of Global Week

22 faculty members lectured

- **11** professors from Tecnológico de Monterrey
- **11** professors from partner universities

6 partner universities

Certificates, specializations, multicultural activities, and more

During 2020, Tecnológico de Monterrey opened opportunities for undergraduate and graduate students to participate in virtual internationalization experiences **as well as foreign students from partners universities have participated in Tecnológico de Monterrey programs.**

Through programs such as certificates, virtual exchange programs, **specializations, and multicultural activities** students were able to taste different international experiences.

Certificates, specializations, multicultural activities, and more

This year, **1,967 students from Tecnológico de Monterrey** participated in the following programs.

	Undergraduate	Graduate	Total
Certificates	102	78	180
Virtual Exchange Programs		12	12
Specializations		11	11
Multicultural Experiencies		112	112
TOTAL	102	213	315

Certificates, specializations, multicultural activities, and more

Also, **1,824** international students from **15** countries participated in virtual programs offered by Tecnológico de Monterrey.

	Contry	Students

	United States	422
	Japan	14
	Netherlands	30
	Panama	26
	Total	1,824

Internships

In 2020, **268** students from Tecnológico de Monterrey took part in virtual and face-to-face internships programs in **15** countries around the world:

Australia, Austria, Belgium, Canada, Colombia, Czech Republic, France, Germany, Italy, Japan, Peru, Spain, Switzerland, United Kingdom, and United States.

Some of the institutions that welcomed our students include:

among others.

Research Projects

In 2020, **68** students from Tecnológico de Monterrey took part in research projects in Canada, France, Spain, and in the United States.

The companies and universities where students did their research stay are: Danone, Mondelez, Pepsico, Renault, Sanofi, Harvard Medical School - Brigham and Women Hospital, California State University at Fullerton, Rice University, Airbus, Becker-SIPPA Bar sur aube, Lancel, Les aliments Bercy inc., Sustainable Innovations.

Clinical Rotations

In 2020, **46 students** of the School of Medicine and Health Sciences from Tecnológico de Monterrey did a clinical rotation in seven countries: Canada, France, Portugal, Spain, Sweden, United Kingdom, and in the United States.

In the following hospitals and institutions: Harvard University, Houston Methodist Hospital, MD Anderson Cancer Center, Linköpings Universitet, McGill University, Baylor Scott and White Health, Clínica Benfca, Consorci Santinari Garraf, Cuiyan Xin, Dr. Owen Phillip, Eurocanarias Clínica Oftalmológica, GAN, Hospital de la Santa Creu i Sant Pau, Hospital Infantil Universitario Niño Jesus, Hospital Shriners, Institute for Healthcare Improvement, Methodist Hospital Stone Oak and Texas Oncology, Servicios de Salud Navarra, Universitat Autònoma de Barcelona, Université Lille 2 Droit et Santé, University of California at San Diego, and University of Miami.

International Consortia

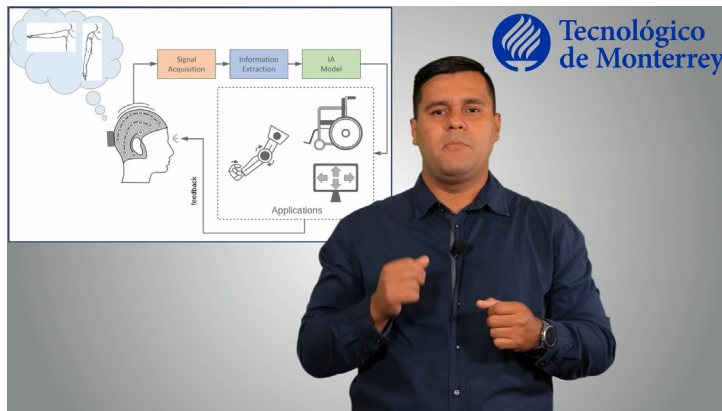

Tecnológico de Monterrey forges strategic alliances with prestigious organizations and consortia around the world. These consortia allows Tecnológico de Monterrey to develop academic, research, and international cooperation programs.

U21 – Universitas 21

<https://universitas21.com>

Luis Guillermo Hernández, a graduate student from Tecnológico de Monterrey, participated and won the People Choice Award in the “Three Minute Thesis- 3MT contest.” The name of his presentation was ‘Decoding of motor information from brain signals,’ watch it here:

International Consortia

The U21 Global Citizen online leadership course was available to 75 students from Tecnológico de Monterrey. The course was taught by Common Purpose, a non-profit organization focused on developing leadership in students around the world.

The open call to participate in RISE (Real Impact on Society and Environment) competition had over 101 applicants from Tec de Monterrey undergraduate students. From those, three projects were sent to the board of international experts where “Proyecto 99” won the first prize.

**Association of Pacific Rim
Universities**

<https://apru.org>

Four teams from Tecnológico de Monterrey were selected as finalist for the Quarantune Student Music Competition, the team from campus Ciudad de México won the first place tied with the National University of Taiwan. The song was called “Somos Más” (We are more), see the video here:

International Consortia

Tecnológico de Monterrey students were invited to participate in the APRU Virtual Student Exchange Program (VSE) with 55 universities from the network offering their courses.

César Alberto Lucio, Tecnológico de Monterrey professor of the School of Medicine and Health Sciences participated in the third session of Teaching in Virtual Environments webinar series.

Antonio Bellorín, Tecnológico de Monterrey director of risk and security management, participated in the 16th APRU Multi-Hazards Symposium 2020. While Manuel Pérez, dean of the north region of the School of Medicine and Health Sciences, offered a course on Global Health Leadership for graduate students.

Tecnológico de Monterrey assumed the leadership of the University eSports International Initiative, both the Vice Rectory for International Affairs and LiFE Mexico Region are in charge of activities and events. In 2020 they launched the Borregos eSports Tournament.

International Consortia

European Consortium of Innovative Universities

<https://www.eciu.org>

A group of Tecnológico de Monterrey professors won the second place in the “ECIU Team Award 2020” for the project iWeek (Semana i).

The representative from Tec attended the Virtual workshop about ERASMUS with the consortium European Consortium of Innovative Universities (ECIU) and Young European Research Universities.

Also, the project “ECIU European University” was supported with the help of Tecnológico de Monterrey experts in Challenged Based Learning for TEC21 Educational Model.

Tecnológico de Monterrey supported the creation of the Virtual Institute of Research and Development, which is being coordinated by the Collaboration with the Universitat Autònoma de Barcelona.

International Consortia

Centro Interuniversitario de Desarrollo

<https://cinda.cl>

Tecnológico de Monterrey published over 100 courses for undergraduate students. The catalogue includes courses taught in English and in Spanish.

Magalhães Network – Magalhaes Network

<https://www.magalhaes-network.org>

The event “Current challenges and opportunities related to internationalization activities during the COVID-19 situation” had the participation from the Global Classroom by Tecnológico de Monterrey team.

The General Assembly of Magalhães Network highlighted the work from Tecnológico de Monterrey, mentioning that in 2020, 78 students have done an exchange program with universities from the network.

International Consortia

Alianza del Pacífico – The Pacific Alliance

<https://alianzapacifico.net/en/>

Tecnológico de Monterrey was part of the “The strengthening of the network-university.” The panel was part of the event “Summit of Partners of the Program of Internships for Students CEAP 2020-2.”

In November 2019, the call for internships with companies in Colombia, Peru, and Chile was opened for Tec de Monterrey. Six students from Tec were selected and did an internship stay. For 2020, the call was changed to a virtual format and the students that earn a place will start their internship in the summer of 2021.

A Resilient 2021: Lessons, Innovation, and Collaboration

Editorial Letter

Patricia Montaña Salinas
Director of the International Office
Vice Rectory for International Affairs
Tecnológico de Monterrey

Francisco Huerta Tamayo
Director of Operations
Vice Rectory for International Affairs
Tecnológico de Monterrey

Our experience, hard work, and expertise are what make internationalization happen.

The global health pandemic changed the world. At this point there were two possible responses: to wait until COVID19 gets under control or to reinvent international experiences. The Vice Rectory for International Affairs chose the latter.

The year 2020 was the year of innovation, we took our expertise from the past ten years and implemented new academic experiences in a virtual format. We offered the traditional programs such as internships, research stays, certificates, and workshops virtually.

But we also innovated with propelling the initiative Global Classroom by Tec de Monterrey, Global Week: Diversity in a Global World and offering Virtual Exchange Programs as partial, combined and full academic workload for undergraduate students at Tecnológico de Monterrey and for foreign students from our partner universities.

We are very thankful that many of our partners chose to trust us and continue to work with us in this international academic adventure. This great effort would not be in vain, we are confident that the internationalization of universities is evolving with us, and that mobility and virtual experiences will continue to shape students for many generations to come.

Thank you for joining us in this new era!

* Internal naming of the initiative
